Re: Co-Op/Intern

Dear Hiring Manager

I am extremely interested in Intern position that your company has advertised on Indeed. I am currently pursuing Ontario Advanced College Diploma in Computer Programming and Analysis, and I would be a valuable addition to your company.

As a current student at George Brown College, I have gained valuable hands-on experience developing full stack applications using technologies like Java, C#, MySQL, and Oracle, all of which are a requirement on internship that I am applying for. Through numerous projects and assignments done individually and as a team I had chance to work side by side with other developers and apply software development methodologies to deliver high quality projects resulting in success of all team.
-- need better ending

Thank you for your time and for reading this letter, I look forward to hearing from you so we can setup time for an interview. I am eager to work together and contribute to growth and prosperity of your company.

Please feel free to contact me at (416) 784 5444 any day after 4:00pm
Or by email: ostapsulyk@gmail.com

Thank you,

Ostap Sulyk
